

```
8  #include <iostream>
9  using namespace std;
10 int main()
11 {
12     char char_1, char_2;
13     cout<< "Enter two characters respectively:";
14     cin>>char_1>>char_2;
15     cout<<"char_1="<<char_1<<endl;
16     cout<<"char_2="<<char_2;
17     return 0;
18
19 }
20
21
22
```

```
Enter two characters respectively:xy
char_1=x
char_2=y
```
